ABC MOUTHPIECE AND FILTER KIT

56

01 OXYGEN THERAPY

Capnography Mask

- Capnography Mask is a soft pliable contoured design that provides a comfortable fit and incorporates a kink resistant oxygen line, plus CO₂ sample line outlet
- A CO₂ in-line filter option is also available

Product code	Gas sampling line	Size
GC8060A01	without	Adult elongated
GC8060A02	without	Adult standard
GC8060A03	without	Pediatric elongated
GC8060A04	without	Pediatric standard
GC8060B01	with	Adult elongated
GC8060B02	with	Adult standard
GC8060B03	with	Pediatric elongated
GC8060B04	with	Pediatric standard

CO₂ Nasal Oxygen Cannula

- Adult low-flow plus CO₂ sampling cannula with 2m gas sampling tube for CO₂

Product code	Size
GC8022L01	Adult

GC8022L01

Adult

Elastic Head Strap Cannula

Elastic Head Strap Cannula is designed for a more comfortable feel for those who need daily respiratory therapy. These soft, Over-the-Ear Cannulas are simply inserted into the nostrils to allow proper air delivery from the an oxygen concentrator machine.

- Lightweight, soft, transparent vinyl
- Adjustable elastic band for comfortable, snug fit below the ears
- Available with 7 ft, oxygen supply tubing

**Product code**

GC8022S11

Size

Adult

Universal Green Oxygen Bubble Tubing

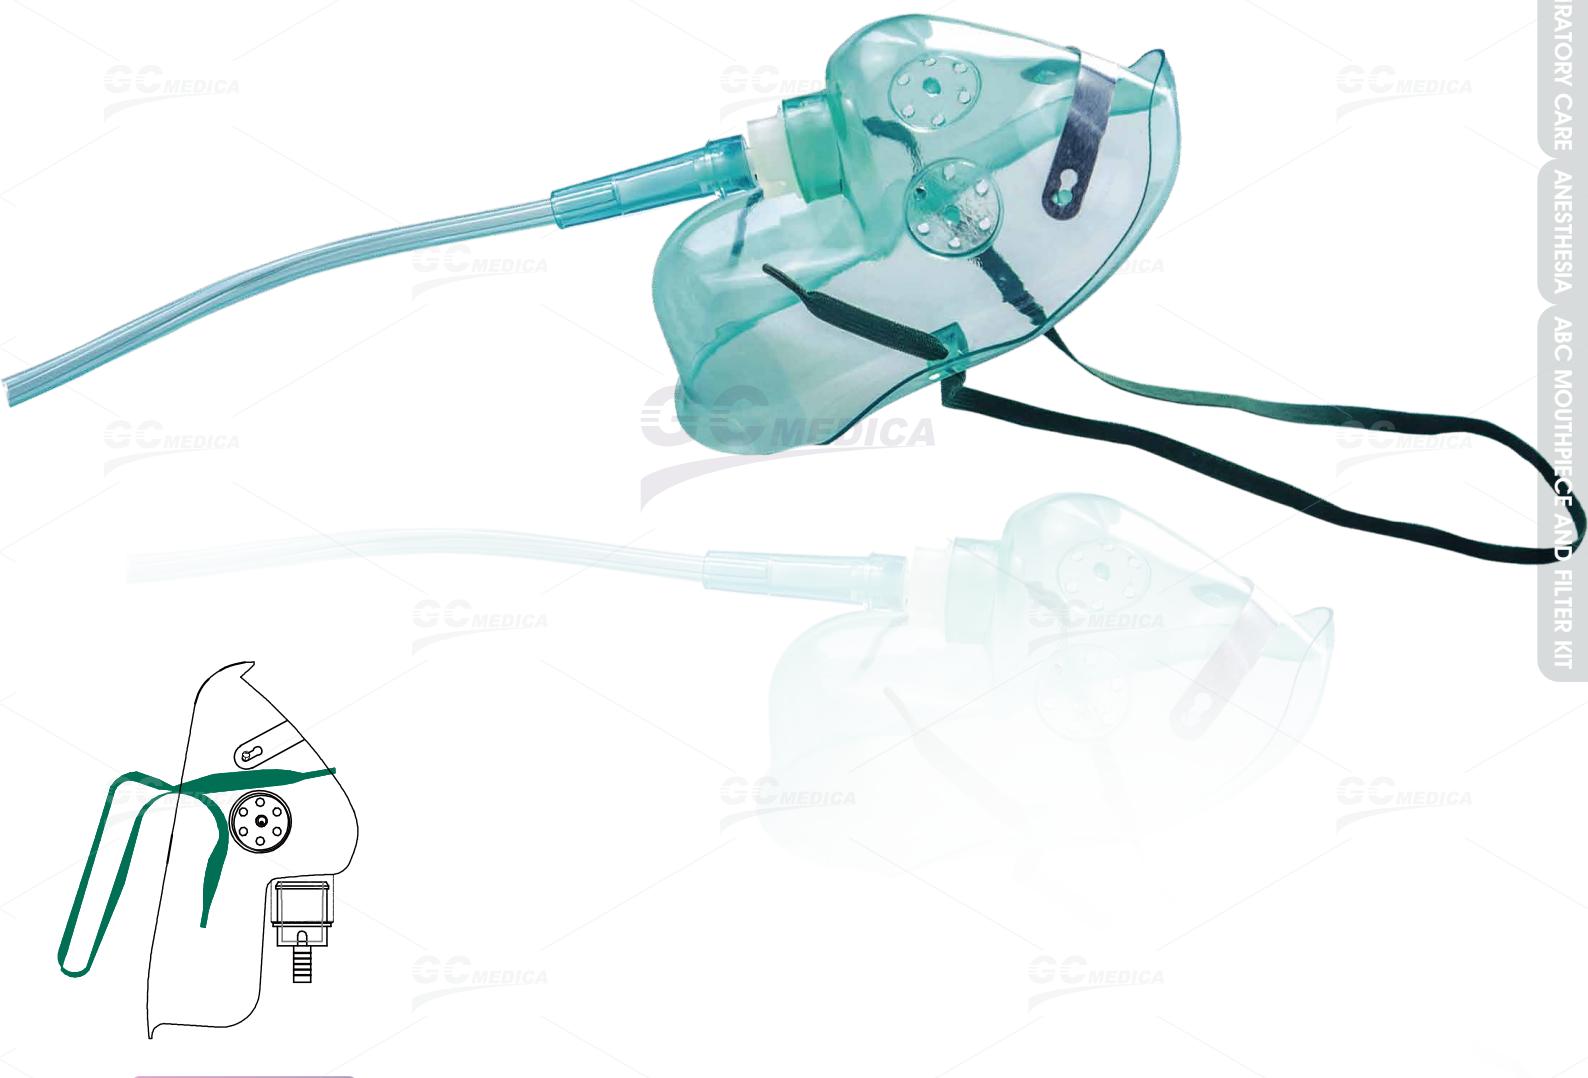

Universal Green Oxygen Bubble Tubing is a 30 metre length of green tubing designed for clinicians who can cut the tubing to the required length and diameter so that the tubing is matched to the appropriate mask/nebulizer and corresponding oxygen source.

Product code	Description	Length
GC1301A03	OD4.6mm, ID3mm, green	30m

Oxygen Mask

- A full range is available to meet all requirements in pediatric standard, pediatric elongated, adult standard and adult elongated
- Available with swivel oxygen adapter for easy application and patient's comfort
- Smooth featured edges are designed for anatomical compatibility

Product code	Size	Tubing length	Nose clip	Swivel oxygen connector
GC8015A01	Adult elongated	2.1m	✓	
GC8015A02	Adult standard	2.1m	✓	
GC8015A03	Pediatric elongated	2.1m	✓	
GC8015A04	Pediatric standard	2.1m	✓	
GC8026C01	Adult	2.1m		✓
GC8026C02	Pediatric	2.1m		✓

Non-Rebreather Mask

- Low resistance, Latex-free check valve allows exhaled gas to escape, helping patient receive better quality air
- A full range is available to meet all requirements in pediatric standard, pediatric elongated, adult standard and adult elongated

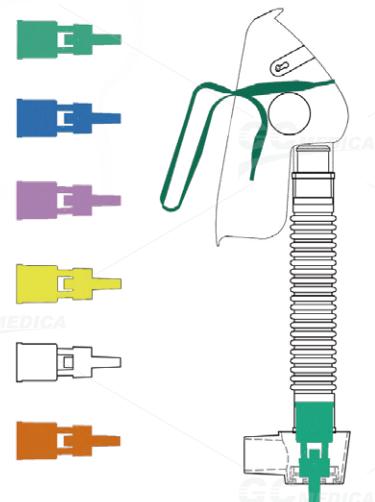

Product code	Size	Tubing length	Nose clip	Bag volume
GC802501	Adult elongated	2.1m	✓	1.0L
GC802502	Adult standard	2.1m	✓	1.0L
GC802503	Pediatric elongated	2.1m	✓	0.75L
GC802504	Pediatric standard	2.1m	✓	0.75L

Multi-Venturi Mask

- Variable sized masks
- 6 color-coded diluters for different concentration
- Includes adapter for high-humidity entrainment

Blue: 24% Green: 35%
 Yellow: 28% Pink: 40%
 White: 31% Orange: 50%

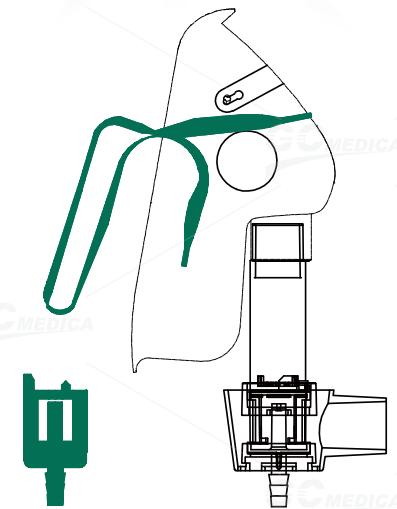

Product code	Size	Tubing length	Nose clip
GC8026B01	Adult elongated	2.1m	✓
GC8026B02	Adult standard	2.1m	✓
GC8026B03	Pediatric elongated	2.1m	✓
GC8026B04	Pediatric standard	2.1m	✓

Adjustable Venturi Mask

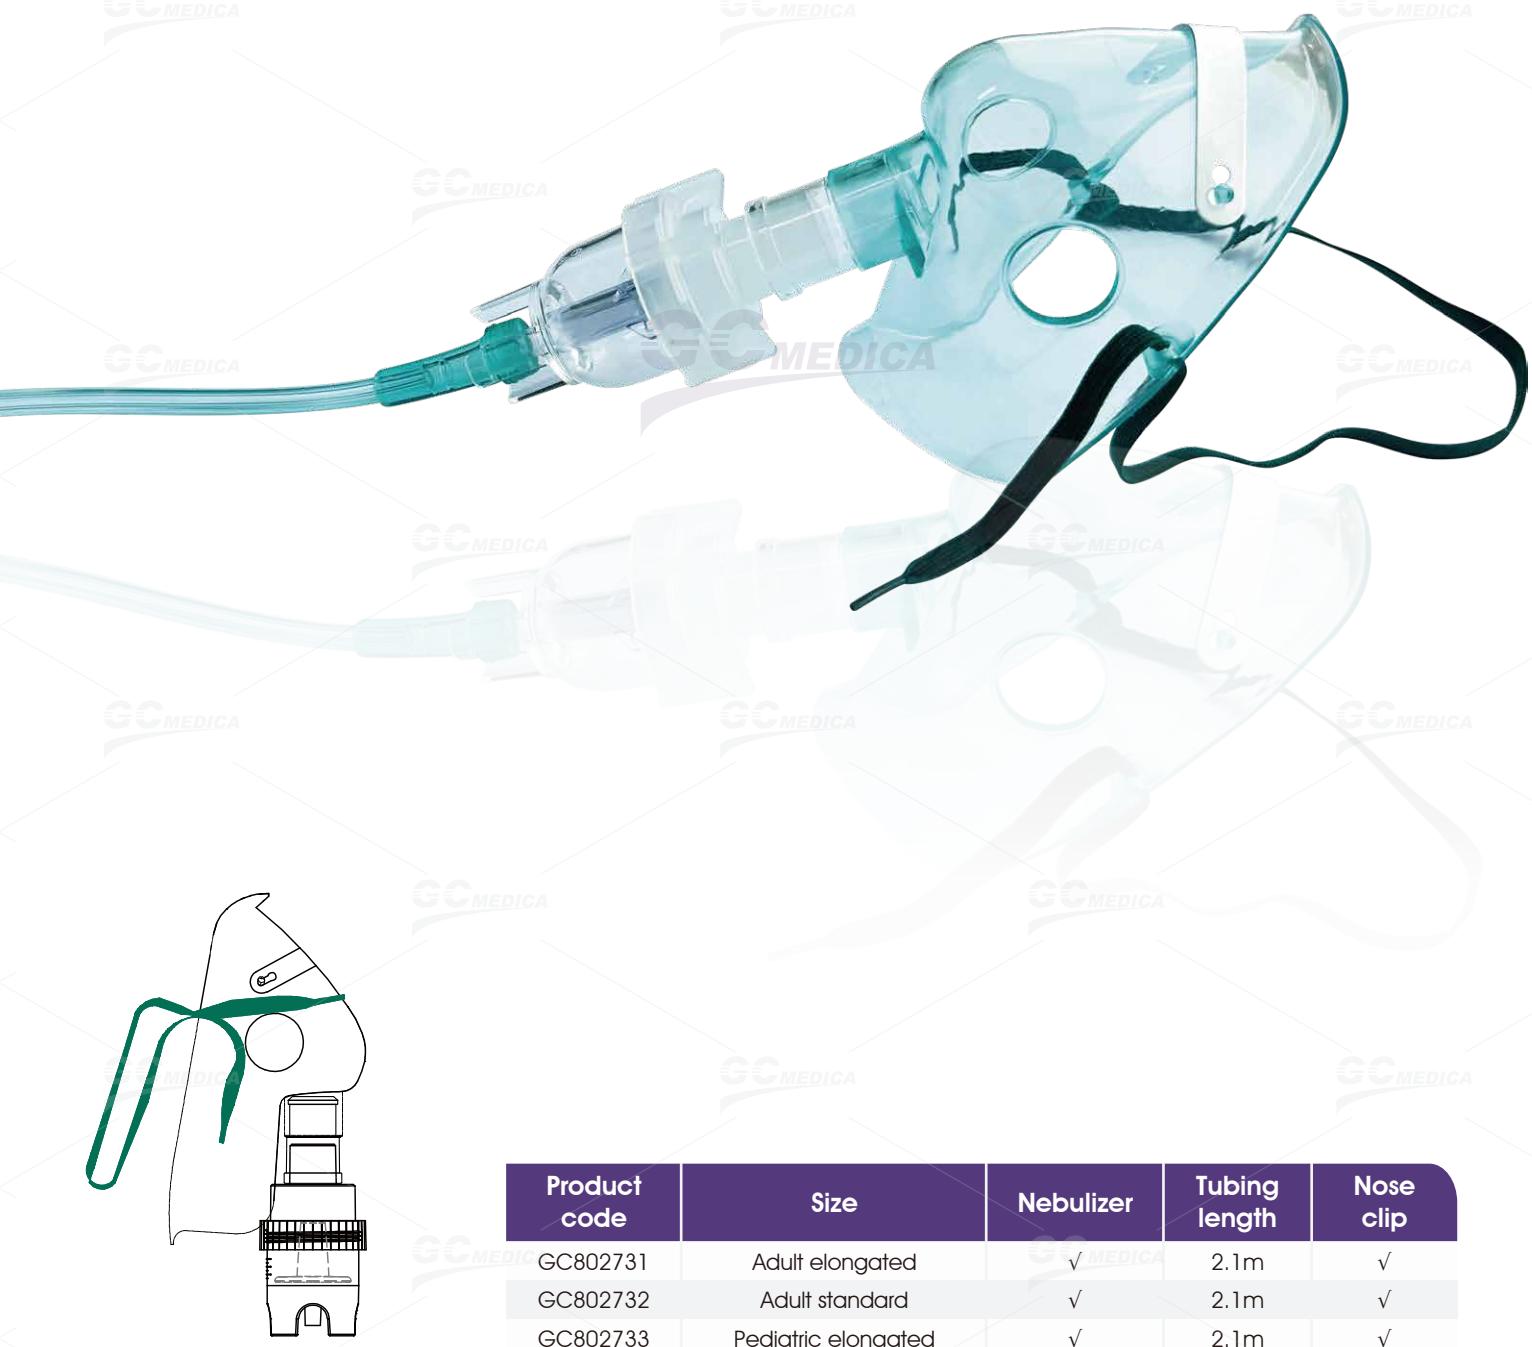

- Safe and simple delivery for variable concentration of oxygen
- Color coded, low and medium concentration diluters, green diluters for 24%, 26%, 28%, 30%, white diluter for 35%, 40%, 50%
- Locking ring secures flow settings
- Includes adapter for high-humidity entrainment

Product code	Size	Tubing length	Nose clip
GC8026A01	Adult elongated	2.1m	✓
GC8026A02	Adult standard	2.1m	✓
GC8026A03	Pediatric elongated	2.1m	✓
GC8026A04	Pediatric standard	2.1m	✓

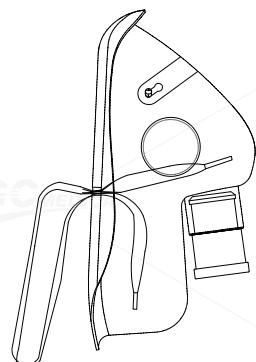

Aerosol Masks with Nebulizer

- Nebulizer is 6cc, designed to be used with any standard nebulizer kit
- Standard fitting allows quick connection to nebulizer kit. Anatomically formed for maximum comfort
- Direct flow design maximizes flow rate and delivers more medication to patient
- Clear transparent shell for easy observation and monitoring

GC802731

Product code	Size	Nebulizer	Tubing length	Nose clip

Mouthpiece with Nebulizer

- Available with 6cc and 20cc nebulizer

Product code	Nebulizer	Tubing length	Aerosol tube
GC802801	6cc	2.1m	✓
GC802801	20cc	2.1m	✓

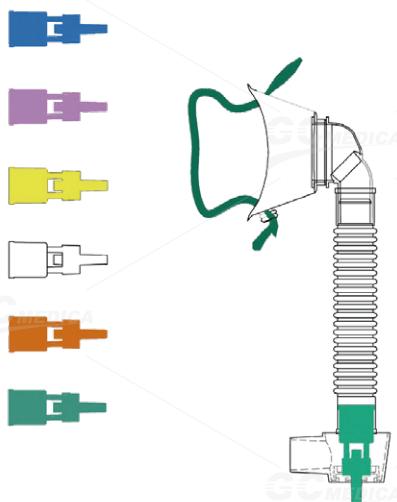

Tracheostomy Venturi Mask

- Specialized venturi style mask allows for the delivery of oxygen to patient who has a tracheostomy
- Equipped with 6"flextube, humidification hood
- Six color-coded diluter jets for different oxygen concentration:

Blue: 24% Green: 35%

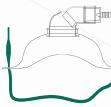

Yellow: 28% Pink: 40%

White: 31% Orange: 50%

Product code	Size	Secure buckle	Oxygen connector	Tubing length

02 AIRWAY MANAGEMENT

Berman Airway

- Beveled tip for comfortable and gentle insertion
- Big curved airway, exactly conforming with oral structure
- Tip of pipe can reach the laryngeal correctly and make sure smooth airflow
- With or without vented septum

Berman Airway

Vented	Non-Vented	Size
GC8023B04	GC8023D04	40mm

Suction Plus Endotracheal Tube

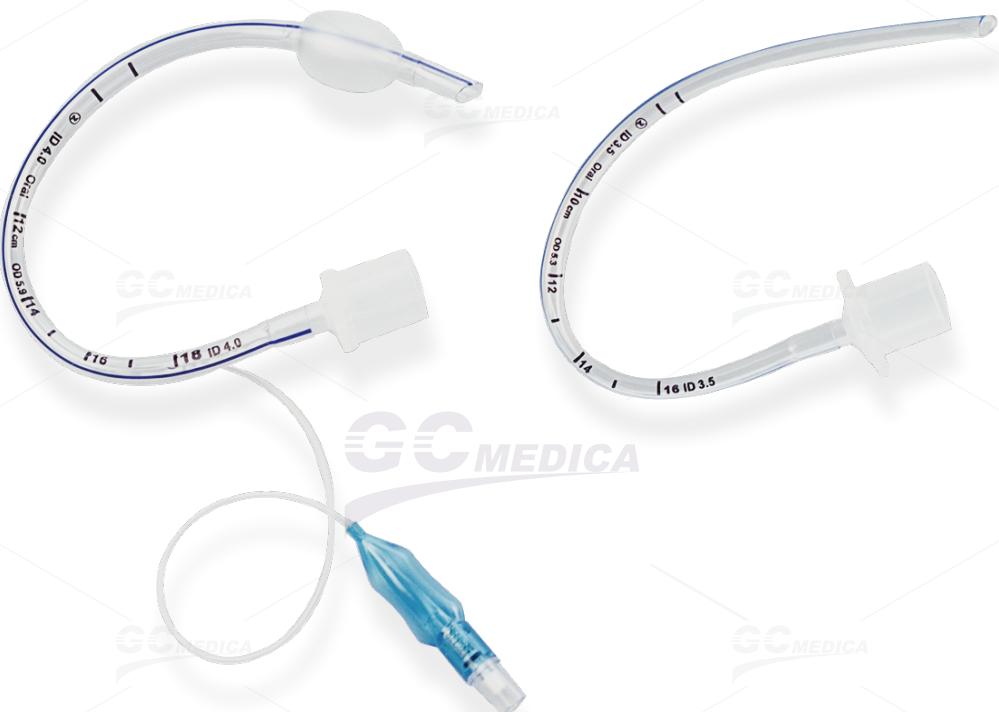

- For airway management by oral/nasal intubation of the trachea and for evacuation or drainage of secretion from the subglottic space
- Helps decreasing the rate of ventilator associated pneumonia(VAP) in the hospital and to reduce VAP related costs
- Integral suction lumen allows continuous suctioning without risking trauma to the vocal cords as with manual catheter suctioning

Standard suction plus	Reinforced suction plus	Size

CELESTIAL Tracheostomy Tube with NeoSuction

The NeoSuction tracheostomy has an additional subglottic port which has 2 possible functions:

- a) Removes pooled subglottic secretions using above-cuff suctioning
- b) Enables above-cuff voicing (if patient has been assessed as suitable by a Speech Pathologist).

GC8054E12	12FR, 25ml, without side eye
GC8054E14	14FR, 25ml, without side eye
GC8054E00	14FR, 25ml, with gradual step connector for funnel suction catheters

Mucus Specimen Trap

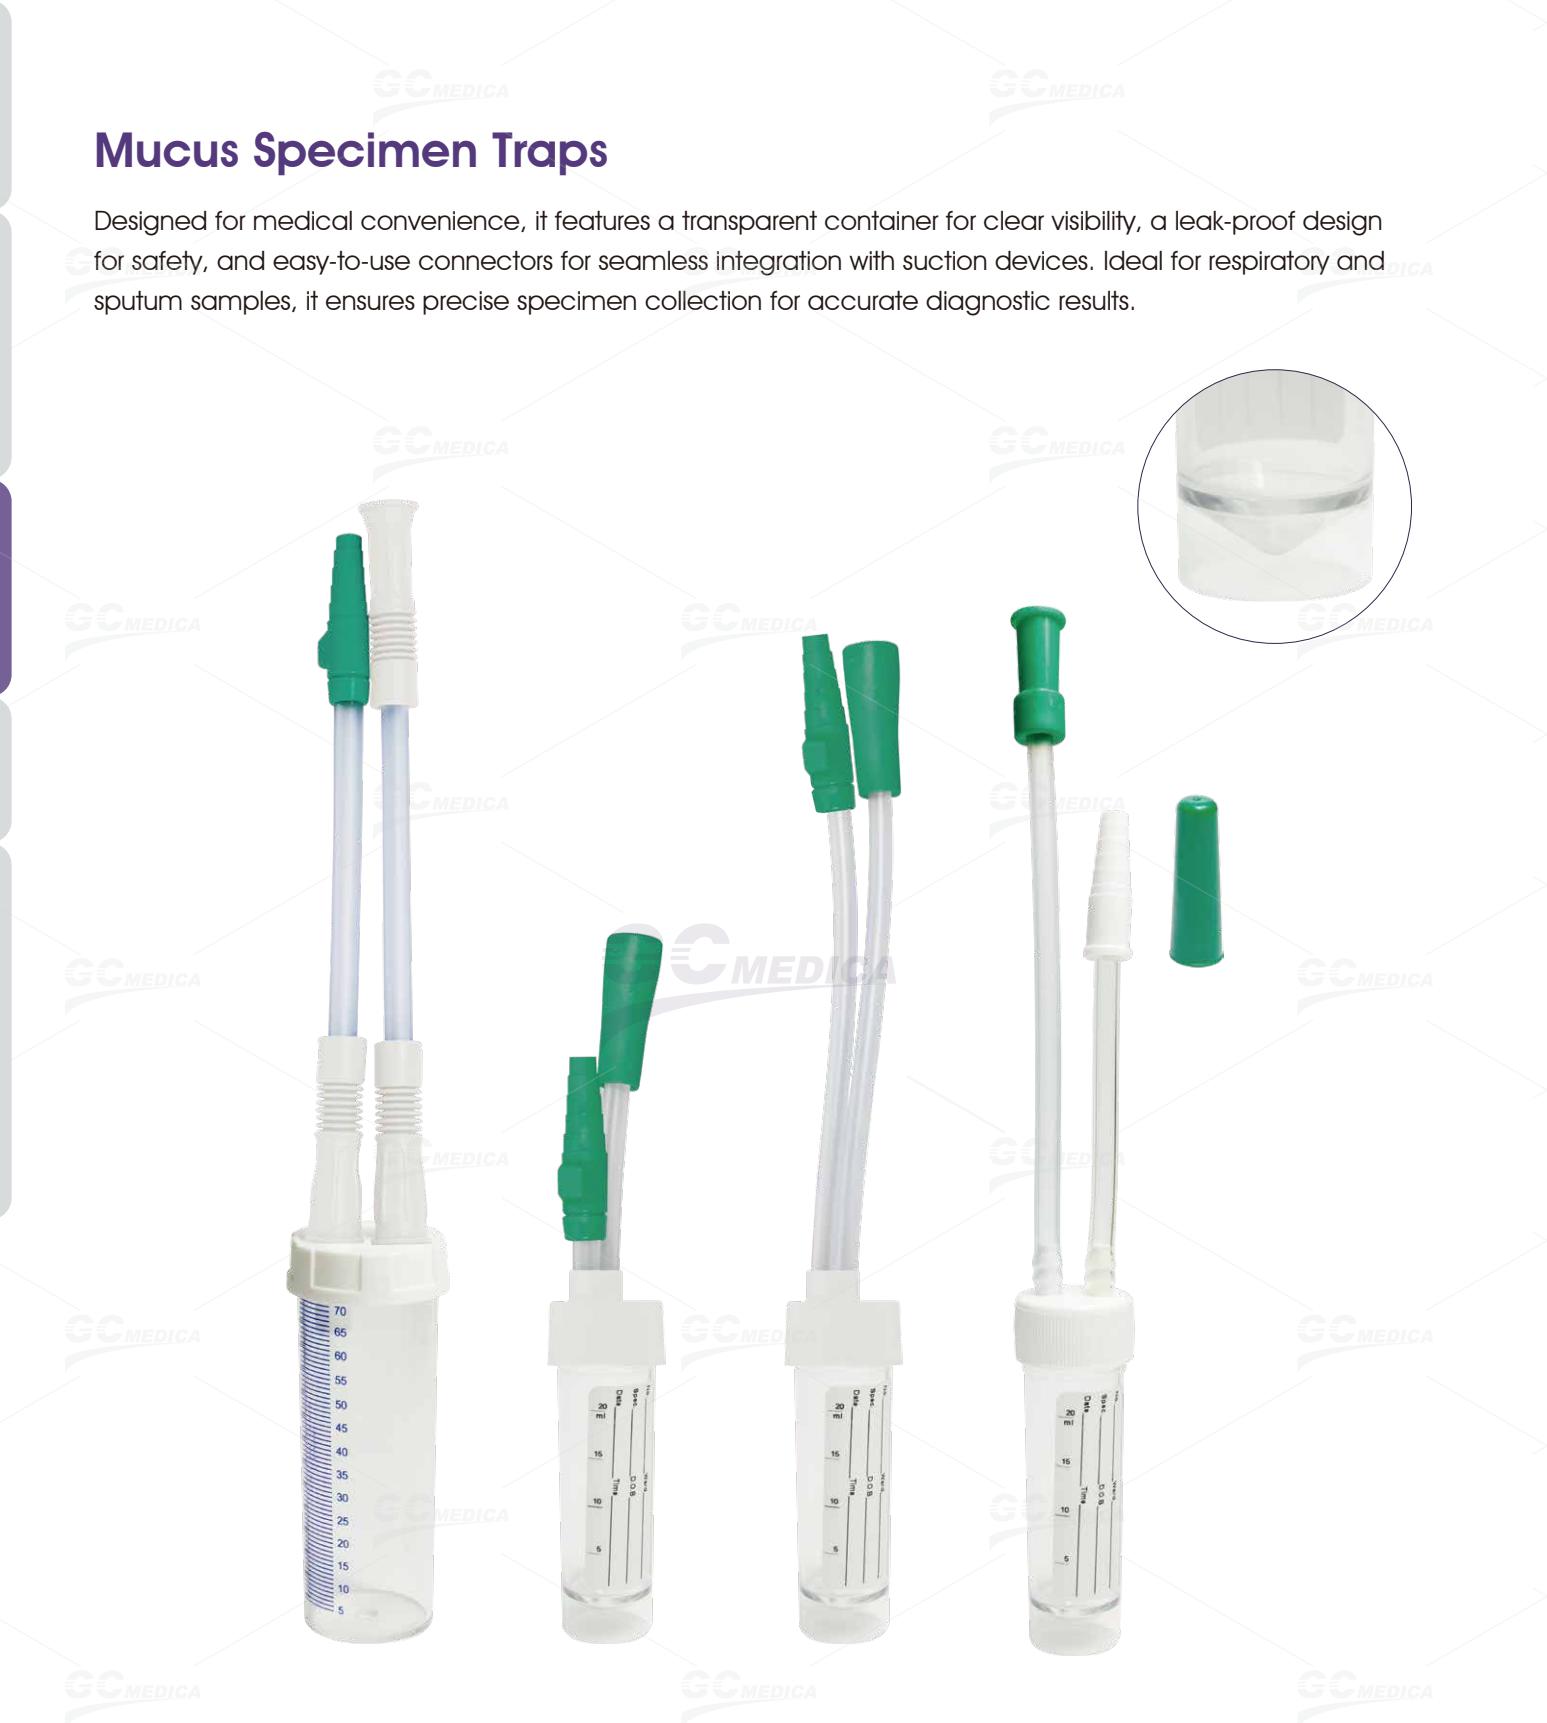

- Mucus specimen traps allow for easy, convenient collection of mucus specimen samples
- After specimen collection, the two connectors are joined to close the system

Product code	Description
GC8057A04	40ml, with spare screw cap, removal adaptor & patient label
GC8057A07	70ml, with spare screw cap, removal adaptor & patient label

Product code	Description
GC8057B04	40ml, with spare screw cap & patient label
GC8057B07	70ml, with spare screw cap & patient label

Mucus Specimen Traps

Designed for medical convenience, it features a transparent container for clear visibility, a leak-proof design for safety, and easy-to-use connectors for seamless integration with suction devices. Ideal for respiratory and sputum samples, it ensures precise specimen collection for accurate diagnostic results.

Product code	Description
GC8057C07	70ml, with 11cm tubing, for use in bronchoscopy
GC8054M00C01	25ml, with reduced length connection to suction catheter to ease movement of secretions to the trap
GC8054M00C02	25ml, with 11cm tubing, for use in bronchoscopy
GC8054N00C01	25ml, for use in bronchoscopy

Suction Catheter

GCMedica has a various range of suction catheter. Genuine factory allows us to manufacture a range of lengths, connector types, sizes and tips to meet all clinical requirements.

We have standard tip, milly tip, autramatic tip and curved tip.

Connector are available with Funnel connector and Transparent Y connector with vacuum control.

Incentive Breathing Exerciser

- It helps the patient to recover normal respiration after a chest or abdominal surgery
- It encourages deep and prolonged inspiration
- Three chamber design allows the patient to lift the balls without any resistance to achieve the maximum volume in minimum time
- Available with adjustable and non-adjustable type

Product code	Volume	Size
GC8002A01	600-1200cc/second	Non-adjustable
GC8002B01	600-1200cc/second	Adjustable

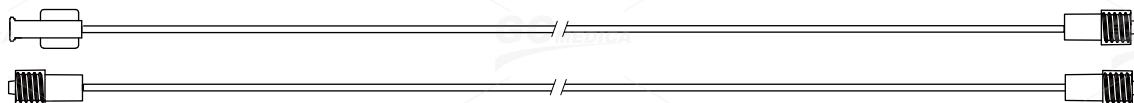

Volumetric Breathing Exerciser

- Two sizes available: 5000ml and 2500ml
- Colorful volume labeling facilitating patient evaluation and use
- Clean flow window for convenient observation

05 ABC MOUTHPIECE AND FILTER KIT

ABC Mouthpiece and Filter Kit

The mouthpiece and filter kit is intended to be used with active breathing coordinator for DIBH(Deep Inspiration Breathing Hold), a technique to treat cancer in the breast, chest wall or occasionally the abdomen. The mouth and nose clip help patient inhale and exhale via mouth and take a deep breath during radiation treatment under doctor's guide.

**Product code**

GC8049A01

Description

A kit including mouth piece, 17" breathing hose, filter and nose clip.
