UROSTREAM DRAIN BAG

Urology Drain Bag is designed to fit most hoop frames. This unique design includes a vinyl flap that goes under the patient to direct fluids into the bag, a flexible 6' long hose, and a tissue filter to allow for the collection of the tissue specimens. This optional design makes things safer and easier for your OR personnel by allowing them to utilize your existing suction equipment. The result is better management and control of infectious fluid waste.

FEATURES:

- Mounts with integral clamps to the side rail
- A flexible band provides excellent access while providing superior fluid containment
- Compatible with all suction systems for exact liquid collection
- Open mesh filter allow for fast drainage of fluids
- Durable, drape has flexible hose
- Velcro securement eliminates the need to use tape

Product code	Description
GC05701	Fixed filter
GC05702	Removable filter

URINE DRAINAGE BAG

Basic Urine Bag

Push & pull valve

Twist valve

Product code	Description
GC051A00	2000ml, no drain valve, anti-reflux valve
GC051A01	2000ml, push drain valve, anti-reflux valve
GC051A03	2000ml, twist drain valve, anti-reflux valve
GC051A12	2000ml, slide drain valve, anti-reflux valve
GC051A22	2000ml, slide drain valve, without anti-reflux valve

Low-Bed Urine Bag

Low-Bed Drainage Bag features to facilitate proper drainage and anti-reflux valve for back-flow prevention. The exclusive slide-tap drainage port allows for minimal splashing during drainage. The drainage bag has a reversible design for versatile placement on either side of the bed.

Product code

GC051M01

FEATURES:

- With cross valve
- With anti-reflux valve
- With reinforced double hanger & rope hanger

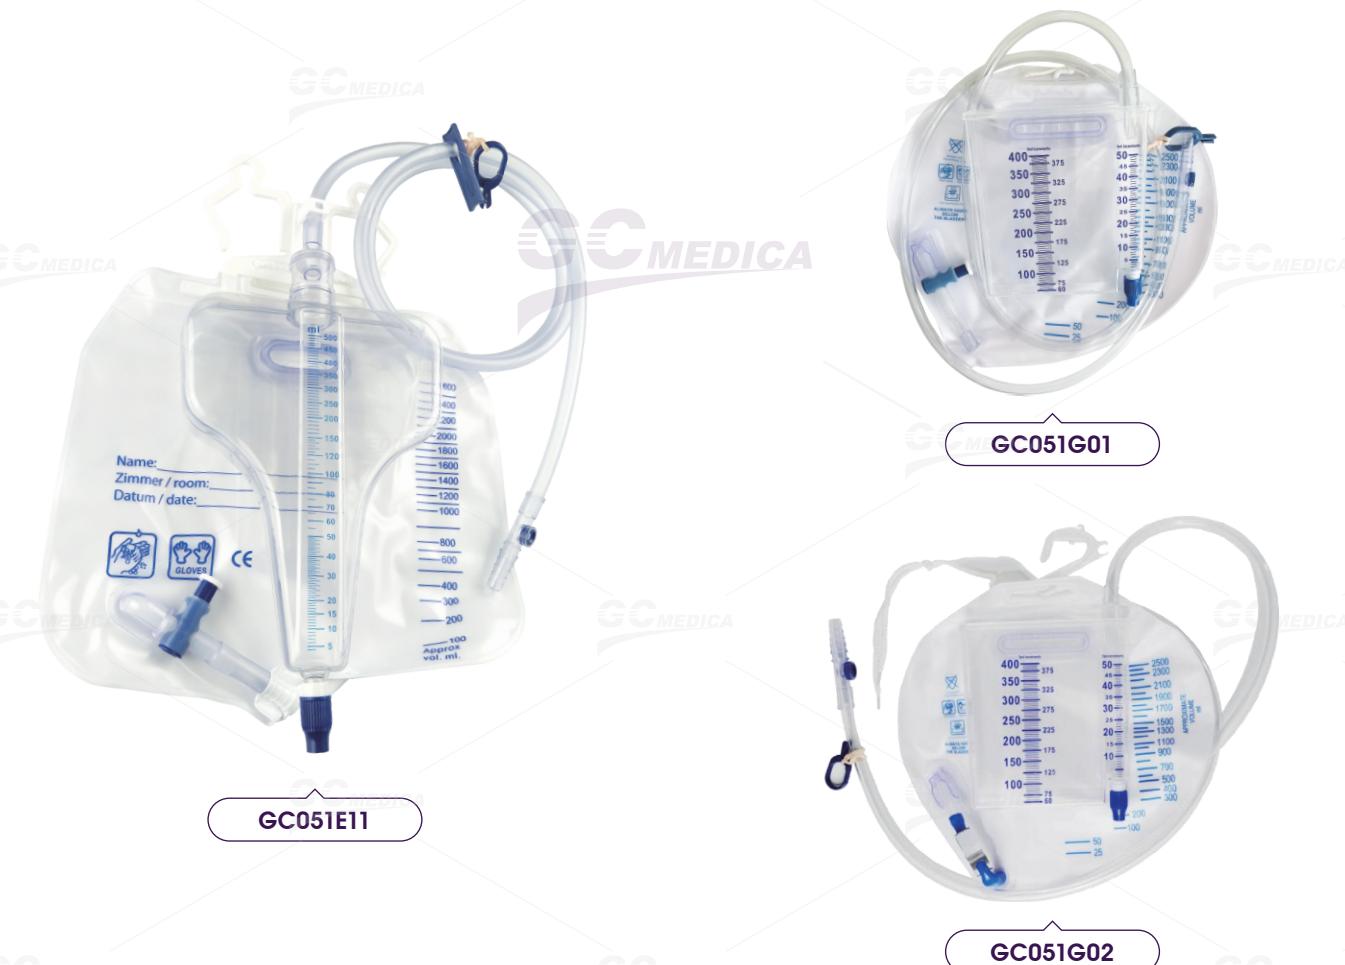

Urine Meters

Drainage Bag with Urine Meter is a closed suction system used to accurately measure urine output and collect the urine. The device features a rigid, clear and transparent measured volume chamber for critically ill and surgical patients with 1ml graduations for easy reading of output measurements.

FEATURES:

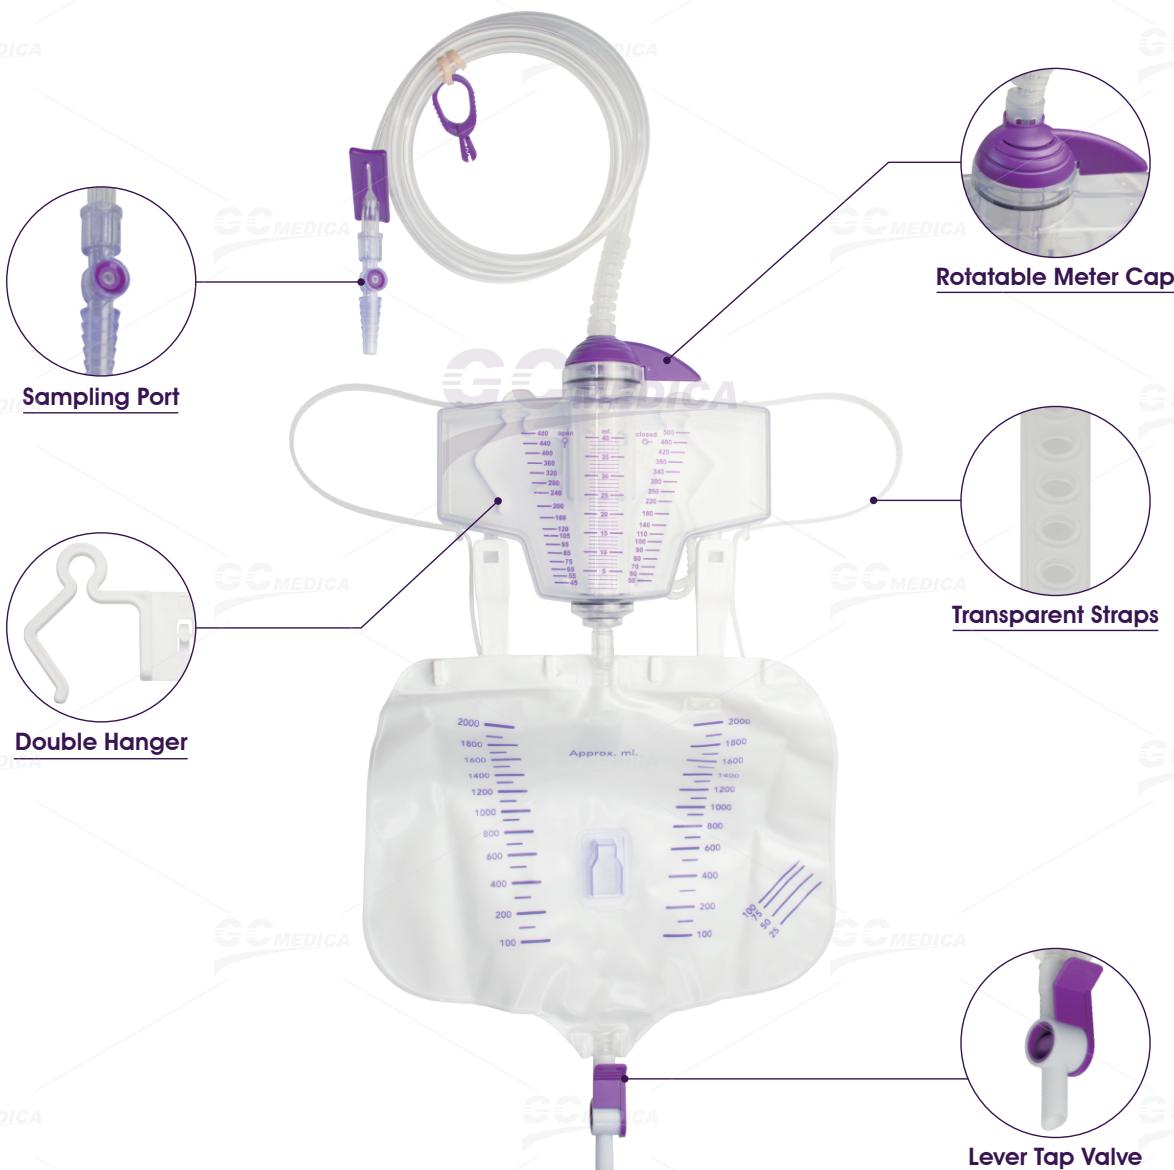

- Needless sample port with blunt cannula access
- Adjustable bed sheet clamp for securing drain bag tubing
- Designed with anti-reflux valve

Product code	Description
GC051G01	400ml Urine Meter with 2,500ml Drain Bag, 150cm tubing
GC051G02	400ml Urine Meter with 2,500ml Drain Bag, Metal Clamp, Slide Tap, 150cm tubing
GC051E11	500ml Urine Meter with 2,600ml Drain Bag, Slide Tap, 150cm tubing

FEATURES:

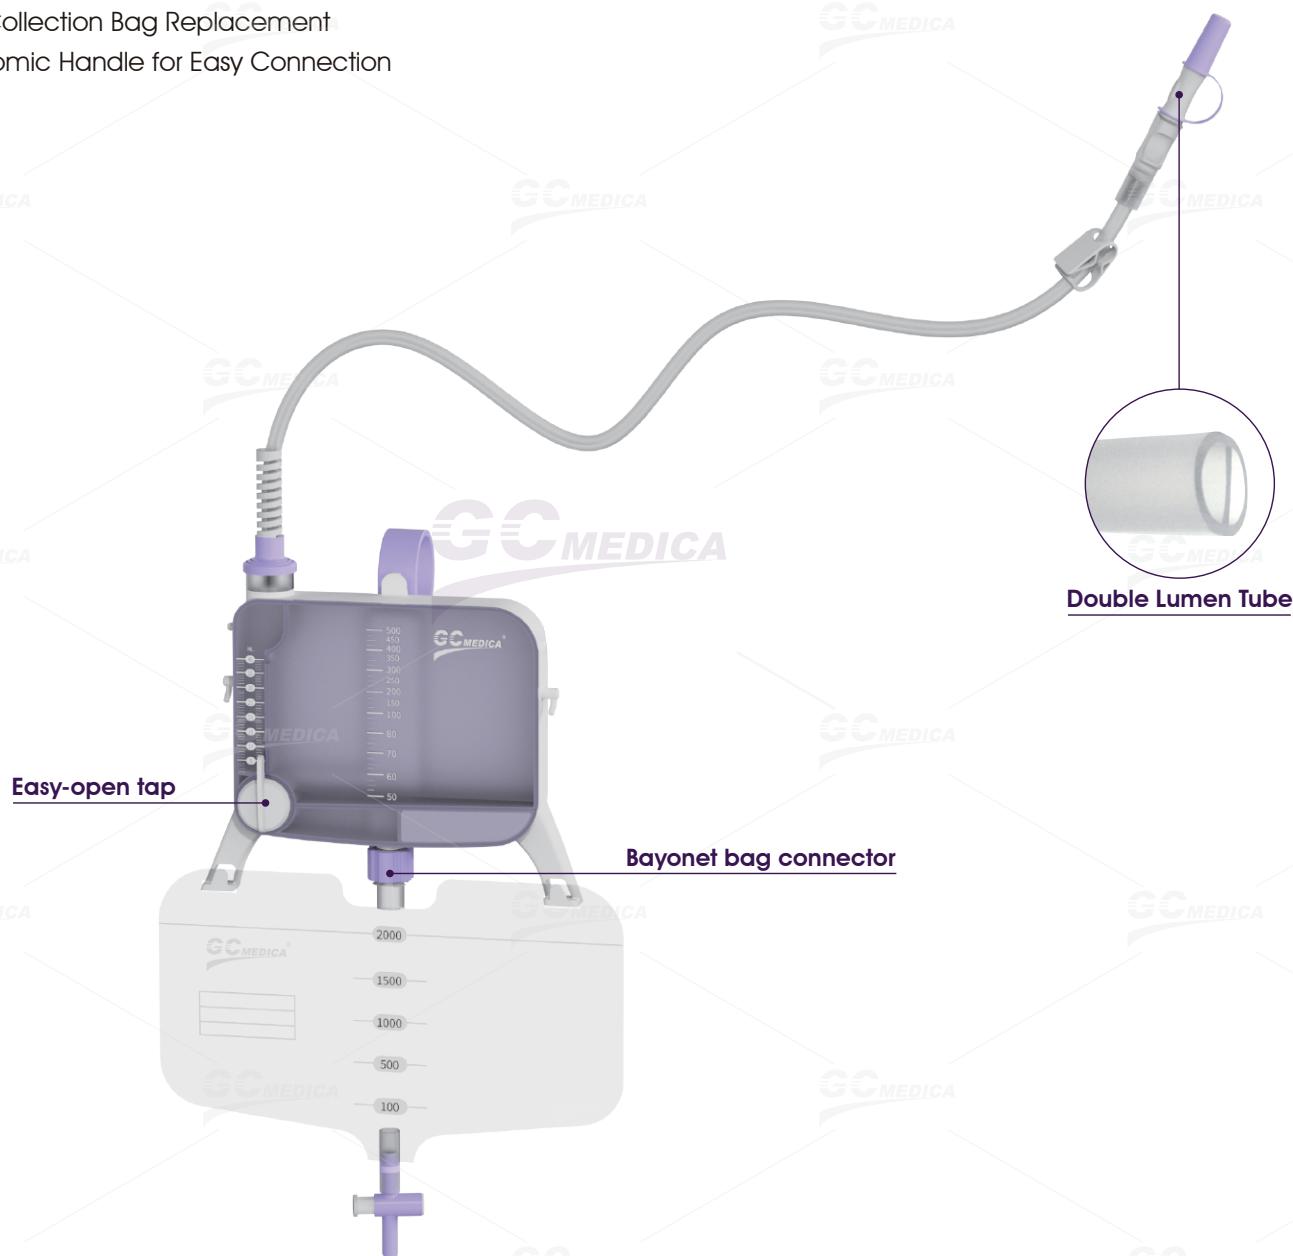

- Detachable urinary bag with urine meter on top and urine bag on bottom
- Rotatable meter cap that controls the urine switch
- Reinforced double hanger, rope hanger and double transparent straps
- Special polygonal urine meter
- Flip-type outlet valve

Product code	Description
GC051J01	500ml Urine Meter with 2,000ml Drain bag, Rotating Tap, 120cm tubing

FEATURES:

- Dual No-Return Valves:
Minimizes the risk of retrograde infection for safer use
- Double Lumen Tube:
Reduces urine adhesion to the tube, ensuring free and uninterrupted urine flow
- High-Performance Bacterial Filter
- Easy Collection Bag Replacement
- Ergonomic Handle for Easy Connection

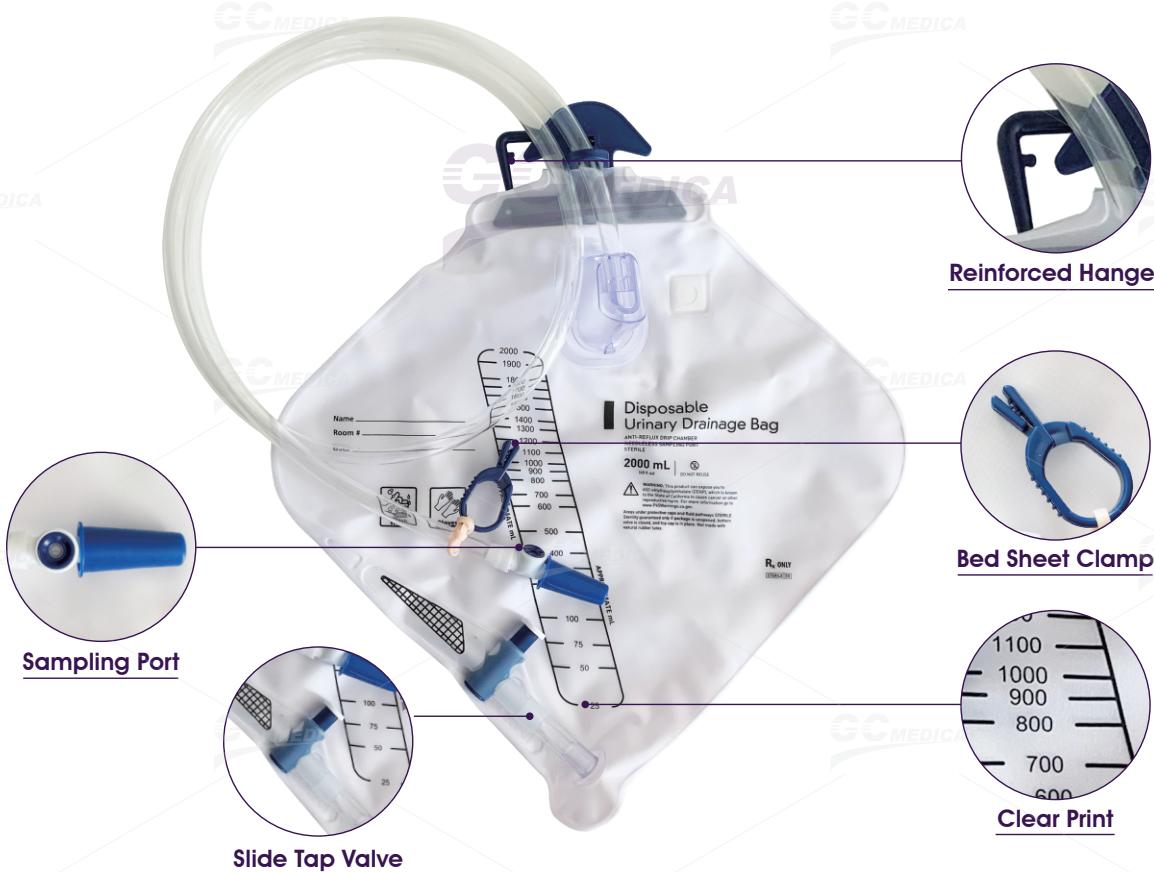

Product code	Tube size	Volume	Description
GC051P01NFC01	150cm	500ml metered	Needle-free sample port (Incision)
GC051P01NFU01	150cm	chamber + 2000ml	Needle-free sample port (Incision), PVC Free
GC051P02NFC01	150cm	bag	Needle-free sample port (Luer)

Balsam Urine Bag

FEATURES:

- 2000ml volume
- Diamond shaped bag
- Inlet anti-reflux valve
- With reinforced hanger
- With bed sheet clamp
- Ø 10.0×110cm inlet tubing
- Needless sample port with cap
- Slide T-tap outlet valve
- Latex-free, single packed

Product code	Description
GC051B01	2000ml, with 110cm tube, slide tap valve

Pear-Shaped Drainage Bag

FEATURES:

- Pear-Shaped bag
- With reinforced single hanger & rope hanger

Product code

GC051C01

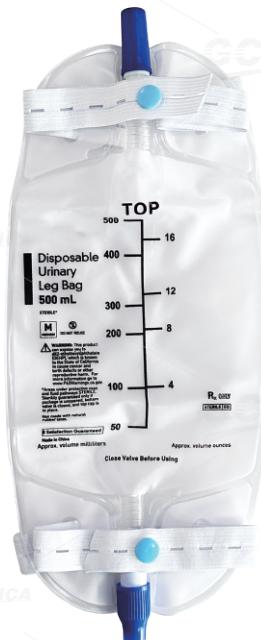

Description

2000ml, φ 10.0 × 1100mm, with reinforced single hanger & rope hanger

LEG BAG

Urinary Leg Bag is durably constructed for odor containment and leak resistance. The anti-reflux chamber reduces gross reflux.

Product code	Spec
GC055B05	500ml
GC055B07	750ml
GC055B10	1000ml

FEATURES:

- Elliptic shape, with anti-reflux valve
- Design allows for even filling and draining
- Includes two flexible straps
- Single use
- Latex free

TRIANGULAR GRADUATES

FEATURES:

- Ideal for measuring intake or output, these easy-to-handle graduated containers have a frosted panel for writing pertinent patient information
- Printed black graduations for increased visibility and ease of measuring fluid level
- Graduated in 50cc and 2oz increments up to 1000cc and 32oz

Product code	Description
GC1922A01	Triangular Graduate 1000ml

MALE URINAL

The male urinal is designed to prevent spills and odors with an attached snap-on lid. It features a sturdy grip for easy handling and can be used in several positions.

Product code	Description
GC065D10	Male, 1000ml

UNISEX URINAL

The unisex urinal is both convenient and portable, and is complete with an easy carry handle, designed specifically for either male or female use via the adaptor provided. After use the urinal can be sealed using the attached anti-spill lid for safe transportation and disposal.

Product code	Description
GC065E10	Unisex, 1000ml

PORTABLE INTERMITTENT CATHETER

CathVantage™ Portable Hydrophilic Intermittent Catheter

The CathVantage™ Portable Hydrophilic Intermittent Catheter is a compact and portable option that's about half the size of standard catheters and has a non-medical appearance. Its design makes it easy to store, carry, and dispose of without sacrificing usability.

The catheter's coating provides even lower friction than traditional hydrophilic coatings, ensuring greater comfort and minimizing the risk of urethral micro-trauma.

GC058A04-GC058A24	04-24FR	40cm length tube with one eye, closed tip, connector with cap

HYDROPHILIC CATHETER

Hydrophilic catheters are a type of pre-lubricated single-use, urinary catheter with a special coating applied to the catheter during the manufacturing process. When introduced to sterile water or sterile saline, the hydrophilic coating is activated and the catheter is ready for insertion.

Product code	Description
GC05805M	Male, 08-18FR, with water sachet
GC05805F	Female, 08-18FR, with water sachet

CATHETER SPIGOT

Catheter spigot is used to provide stop of flow for catheters hygienically during nursing procedure. It is non-invasive utilized to seal the catheter for a short time to allow urine collect in bladder.

FEATURES:

- Graduated design makes it easily accommodate tubing of various internal diameters
- Ribbed design is available
- Two sizes are available for different tube diameter

Product code	Spec
GC101301	Ribbed type
GC1071	O.D. 10mm
GC1072	O.D. 13mm
GC1939A01	Foley catheter adaptor

RECTAL CATHETER

The rectal plastic catheters are used for examination of rectum, administration of medicines and rectal drainage. One end of the catheter has central opening and the other has color plug. Rectal catheters are used in conjunction with delivery systems to provide an effective method of keeping your bowel movements regular and predictable.

Size selection: FR04/06/08/10/12Etc.

SILICONE CATHETER

The Silicone catheter is a two-way catheter indicated for routine drainage of the bladder. It is a urinary catheter intended for short as well as long term drainage of the bladder. For routine and postoperative drainage.

Product code	Description
GC062A0601	06FR, 3ml, length 30cm, with guide-wire
GC062A0621	06FR, 3ml, length 55cm with guide-wire
GC062A0801	08FR, 3ml, length 30cm with guide-wire
GC062A0811	08FR, 3ml, length 35cm with guide-wire
GC062A0822	08FR, 5ml, length 55cm with guide-wire
GC062A1001	10FR, 3ml, length 30cm with guide-wire
GC062A1011	10FR, 3ml, length 35cm with guide-wire
GC062A1022	10FR, 5ml, length 55cm with guide-wire
GC062A1213	12FR, 10ml, length 35cm
GC062A1223	12FR, 10ml, length 55cm

SILICONE MALE CATHETER

Silicone male catheter is a self-adhering catheter that is made from odor-free silicone. It is latex-free to reduce skin irritation.

Transparent and clear, allowing visual inspections without the need to remove the catheter. Built in adhesive makes applications easier and allows longer wear time. A kink-proof funnel is designed to facilitate uninterrupted urine flow.
